

# "The Big Bag Show" 19/6/2015

Documented by Friedel & Pauline

Imagination was the name of the game when it came to viewing the Big Bag Show. Dennis was the master of pulling all sorts of interesting and exciting things from his large stretchy bag. Choosing Heidi from the group of very keen volunteers Dennis took an imaginary apple from his bag and placed it on her head. Then he retrieved an imaginary bow and arrow from the bag and tried to fire the arrow through the apple. His slow motion performance of firing the arrow had everyone in fits of laughter.

Next out of the bag came an imaginary length of rope for a tug of war. Noah F. managed to pull Dennis all the way across the room to the cheers from the crowd!

Long stretchy arms were then produced from the bag and tied to the arms of volunteers Lachlan & Phoebe. Dennis, Lachlan and Phoebe then participated in a humorous song about arms – they found it very tricky to roll their arms and give high fives when they were so long.

Out of the bag came an imaginary dog, Claire and Darcy tried to pat it but it was hard to figure out which end was which! Everyone laughed as Darcy was chased around the room by the dog on a leash.

Keeping with the animal theme, looking into the bag then produced a snappy Magpie – Ruby and Cooper were volunteers to along with the Magpie teach us a dance about birds with flapping wings.

Dennis then amazed us all with some balancing tricks – he was able to balance a pre-school chair on his nose and a full sheet of newspaper on his finger. We were all wondering how he did that??

The show came to a end with a performance of "dancing tubes" – Michael and Ellen joined Dennis in big silver tubes which they managed to pull up over their heads and wiggle to the disco music.

To round off the performance, everyone had a chance to crawl through one of the long wiggly silver tubes.

EYLF 05: Children are encouraged to value and appreciate the expression of humour, dance, drama and story telling through the creative arts.
